CHARAN R

Full Stack Developer | MERN Stack | React.js | Node.js | Cloud Solutions

Bengaluru, Karnataka | +91 7760707949 | charanbavaji.official@gmail.com

LinkedIn | GitHub | Portfolio

PROFESSIONAL SUMMARY

Results-driven Full Stack Developer with 1+ year of hands-on experience building scalable, responsive web applications using the MERN stack (MongoDB, Express.js, React.js, Node.js). Proficient in developing RESTful APIs, designing intuitive admin dashboards, and deploying cloud-hosted solutions on Google Cloud Platform (GCP). Experienced in delivering end-to-end solutions across industries including dental healthcare, real estate, and e-commerce. Adept at writing clean, maintainable code, implementing secure user authentication, and integrating third-party payment gateways. Passionate about performance optimization, UI/UX best practices, and agile development workflows.

TECHNICAL SKILLS

Languages: JavaScript (ES6+), HTML5, CSS3, SQL

Frontend: React.js, Next.js, Redux, Tailwind CSS, Bootstrap, Responsive Web Design

Backend: Node.js, Express.js, RESTful API Development, JWT Authentication, Middleware

Databases: MongoDB, Mongoose, MySQL, PostgreSQL

Cloud & DevOps: Google Cloud Platform (GCP), Compute Engine (VM Instances), Cloud Storage Buckets, Vercel, Netlify

Tools & Platforms: Git, GitHub, Postman, VS Code, npm, Agile/Scrum

Other: CRUD Operations, Payment Gateway Integration, Admin Dashboard Development, MVC Architecture

WORK EXPERIENCE

Full Stack Developer | **Uggiso International Pvt. Ltd.** *Aug 2025 – Feb 2026*

- Developed and deployed scalable, fully responsive web applications using React.js and Redux for efficient state management across complex, data-heavy interfaces.
- Configured and managed Google Cloud Platform (GCP) infrastructure including VM instances (Compute Engine) for application hosting and Cloud Storage Buckets for secure file management and asset delivery.
- Collaborated in an agile development environment, participating in sprint planning, code reviews, and continuous integration workflows to ensure timely, high-quality deliverables.
- Optimized front-end performance through component-level code splitting, lazy loading, and Redux-based state normalization, improving application load times.
- Contributed to RESTful API design and integration using Node.js and Express.js for seamless front-end and back-end communication.

Full Stack Developer (MERN) | **Chesa Dental Care Services Ltd.** *Apr 2025 – Aug 2025*

- Designed and developed multiple internal business portals — Admin, TADA, Procurement, and Service dashboards — streamlining dental service operations and internal workflows.
- Built full-stack web applications using the complete MERN stack (MongoDB, Express.js, React.js, Node.js) with SQL integration for relational data management.
- Implemented role-based access control (RBAC) and secure JWT-based user authentication across multiple admin dashboards used by internal stakeholders.
- Developed RESTful APIs to support CRUD operations for service management, procurement tracking, and user administration modules.
- Collaborated with cross-functional teams to gather requirements, iterate on UI/UX designs, and deploy production-ready features within agile sprint cycles.

FREELANCE & PROJECT EXPERIENCE

SwiftStoneBuilders – Real Estate Platform – https://swiftstonebuilders.com

- Architected and delivered a full-stack real estate web platform using the MERN stack with secure JWT authentication and a fully functional admin dashboard.
- Implemented comprehensive CRUD operations for property listings, user management, and lead tracking, enabling agents to manage inventory in real time.
- Designed a responsive, mobile-first UI using React.js and Tailwind CSS, improving engagement and usability across all device types.
- Deployed the application to production with Vercel (front-end) and configured Node.js/Express.js backend with MongoDB Atlas for persistent data storage.

HealingHeaven – Mental Health Consulting Website – https://healingheaven.earth

- Designed and developed a fully responsive, user-centric website for a mental health consulting service focused on accessibility and empathetic UX design.
- Integrated dynamic content sections, contact forms with server-side validation, and optimized assets for fast page load times and SEO performance.
- Implemented modern CSS techniques and React component architecture to ensure cross-browser compatibility and a seamless user experience.

DraftWood – E-Commerce Platform (Personal Project)

- Led end-to-end development of a full-featured e-commerce platform using the MERN stack, covering product catalog, cart, checkout, and order management.
- Integrated secure user authentication with JWT and bcrypt, along with an intuitive admin dashboard for managing products, orders, and customer data.
- Incorporated a secure third-party payment gateway to enable real-time, encrypted transactions, enhancing user trust and conversion rates.
- Applied RESTful API best practices, MVC architecture, and MongoDB aggregation pipelines for efficient data querying and reporting.

EDUCATION

Master of Science – Full Stack Development *2023 – 2025*
Jain University, Bengaluru | **CGPA: 8.7 / 10**

Bachelor of Computer Applications (BCA) *2019 – 2022*
The Oxford College of Science, Bengaluru | **CGPA: 7.3 / 10**

CERTIFICATIONS & TRAINING

DevOps – Offline Certification Course *3 Months*
Covers CI/CD pipelines, containerization, Linux administration, and DevOps best practices.

Advanced Web Development Program
Modules completed:

- Advanced React.js – Hooks, Context API, performance optimization, and component architecture
- Advanced JavaScript (ES6+) – Closures, async/await, prototypes, and design patterns
- Developer Tools & Debugging – Chrome DevTools, profiling, and browser performance analysis
- Linux Administration – Shell scripting, file system management, and CLI workflows
- Tailwind CSS – Utility-first design, responsive layouts, and custom theming
- HTML5 & CSS3 – Semantic markup, accessibility standards, animations, and Flexbox/Grid

CORE COMPETENCIES

Full Stack Development • MERN Stack • React.js • Node.js • Express.js • MongoDB • RESTful API Development • Redux • Next.js • Google Cloud Platform (GCP) • SQL • JWT Authentication • Admin Dashboard Development • Responsive Web Design • Agile / Scrum • Git & Version Control • Payment Gateway Integration • UI/UX Implementation • Performance Optimization • Cross-functional Collaboration
